

MADHUMITA GHOSH

Artificial Intelligence Trainee | Python & Backend Developer

+91 9833641469 | mahighosh149@gmail.com | LinkedIn: linkedin.com/in/madhumita-ghosh-1a75b7264 | GitHub: github.com/Madhu-204

PROFESSIONAL SUMMARY

Final-year B.E. Computer Science (AI & ML) student with a 9.75 CGPA and hands-on backend development experience through a completed internship at WeSalvator. Proficient in Python, FastAPI, and REST API development with practical exposure to microservices architecture, AI/ML integration, and computer vision workflows. Built accessible AI-powered applications including an OCR-based voice assistant for visually impaired users. Strong analytical mindset, fast learner, and excellent team player — ready to contribute to AI-driven solutions from day one.

EDUCATION

B.E. Computer Science & Engineering (AI & ML) | Smt. Indira Gandhi College of Engineering 2022 – 2026

Current CGPA: 9.75 | Final Year | No academic gaps | Completing degree within stipulated duration

Higher Secondary (12th) | Amrita Vidyalayam 2022

Percentage: 69%

Secondary School (10th) | Amrita Vidyalayam 2020

Percentage: 89%

INTERNSHIP EXPERIENCE

Python & Backend Development Intern | WeSalvator Jan 2026 – Jun 2026

Internship Completion Certificate issued on 8 June 2026 | Role: Python & Django Developer

- Designed and developed scalable backend systems using FastAPI and microservices architecture for production-grade applications
- Built and integrated RESTful APIs supporting real-time application workflows, improving system responsiveness
- Contributed to an API Gateway handling authentication (JWT), routing, and inter-service communication
- Applied system design principles — modular architecture, service separation, and performance optimization
- Worked with DevOps practices including environment setup, debugging, and resolving production-level issues
- Collaborated on backend-frontend integration with React-based interfaces
- Continuously improved code quality through structured development practices and optimization cycles

TECHNICAL SKILLS

Programming Languages: Python, Dart, SQL

AI / Machine Learning: Machine Learning concepts, OpenCV, OCR Integration, Real-time Image Processing, AI model integration

Backend Development: FastAPI, Django, REST API Development, Microservices Architecture, API Gateway, JWT Authentication

Frontend / Mobile: Flutter, React (Basics), Responsive UI Development

Tools & Technologies: Git, GitHub, Postman, Uvicorn, PostgreSQL, Virtual Environments

Core Concepts: System Design, API Architecture, OOP, Debugging & Performance Optimization, Analytical Problem-Solving

Soft Skills: Strong communication, fast learning attitude, team collaboration, adaptability

PROJECTS

VocaSight – AI-Powered Voice Assistant for Visually Impaired |

GitHub: <https://github.com/Madhu-204/VOCASIGHT>

- Developed a full-stack AI application integrating FastAPI (backend), PostgreSQL (database), and Flutter (frontend)
- Implemented OCR-based text detection and text-to-speech output to assist visually impaired users — real-world AI use case
- Built end-to-end ML workflow: voice command → camera input → text extraction → audio response
- Designed scalable backend APIs handling real-time image processing and data flow
- Focused on accessibility-driven design and performance optimization

Personal Portfolio Website |

GitHub: <https://github.com/Madhu-204/Portfolioweb>

- Built a responsive portfolio using React to showcase projects and technical skills
- Implemented modern UI components with optimized layout; structured frontend code for maintainability and scalability

CERTIFICATIONS & ACHIEVEMENTS

- Internship Completion Certificate — WeSalvator, Python & Django Developer (Jan 2026 – Jun 2026)
- B.E. in Computer Science & Engineering with AI & ML specialization — CGPA 9.75 (Top academic performer)
- Python development proficiency demonstrated through backend internship and AI project work

ADDITIONAL INFORMATION

Date of Birth: 14-09-2004

Location: Nerul, Navi Mumbai, Maharashtra – 400706

Availability: Available immediately upon graduation (June 2026)

Willingness to Relocate: Yes – open to relocation across India

Shift Flexibility: Comfortable working in rotational shifts

Languages: English, Hindi, Bengali
